

🔗 EXECUTIVE SUMMARY

Front-End Developer & UI Architect with **2+ years of hands-on experience** in modern JavaScript, Angular, and React architectures with rich data visualization (amCharts, Three.js, Highcharts, Sigma.js, Chart.js). Experienced in engineering enterprise cybersecurity suites (SIEM, SOAR, UEBA, NDR) and interactive telemetry dashboards. Expert in AI-integrated rapid development workflows with strict data integrity, zero data-leakage security posture, and fast adaptability to build full-lifecycle websites, apps, and software systems.

🔗 TECHNICAL STACK & ARCHITECTURE

CORE FRAMEWORKS

Angular, JavaScript, React, and other libraries and frameworks

UI & STYLING SYSTEMS

Tailwind CSS, Material Design 3, Responsive Design Systems, Micro-Animations

DATA VIZ & GRAPHICS

Three.js, amCharts, Highcharts, Sigma.js, Chart.js, etc.

AI WORKFLOWS & TOOLING

Privacy-First AI, REST APIs, Git, Webpack, Vite, Node.js, Express, Modular Tooling

📁 PROFESSIONAL EXPERIENCE

Front-End Developer — Innspark Solutions

JUNE 2024 – PRESENT

- Working as a Front-End Developer on the CISAI platform under Innspark Solutions, with strong expertise in JavaScript, ecosystem libraries, and modern frameworks.
- Engineered enterprise UI for Innspark BDSAP (Big Data Security Analytics Platform) integrating SIEM, SOAR, UEBA, and NDR modules.
- Leveraged AI-integrated development workflows to maximize engineering velocity, code quality, and high productivity.

MERN Stack Developer Intern — Techfriar Technologies

JULY 2023 – JAN 2024

- Developed full-stack web applications using React.js, Node.js, Express REST APIs, and MongoDB databases.
- Implemented secure JWT authentication workflows and responsive front-end dashboard interfaces.

🔗 KEY PROJECTS & ENGINEERING SYSTEMS

Enterprise SIEM & SOAR Suite

CYBERSECURITY / SOC

Enterprise cybersecurity UI for event correlation, incident triage, and automated response playbooks.

Confidential Enterprise Platform (Under NDA)

UEBA & NDR Telemetry Systems

BEHAVIORAL AI / NDR

User entity behavioral analytics & network detection dashboards visualizing threat risk scores.

Confidential Security Analytics Suite

AI-Integrated Web Applications

AI DEVELOPMENT

High-velocity front-end applications built utilizing AI-integrated development workflows & modern tooling.

AI-Driven Architecture & Rapid Delivery

Voice Assist AI for Visually Impaired

DEEP LEARNING

Deep learning-based intelligent voice assistance system enhancing accessibility and independence.

Diploma Final Year Capstone Project

📁 ACADEMIC CREDENTIALS & INTERNSHIP CERTIFICATIONS

Bachelor of Computer Applications (BCA)

Amrita AHEAD (Online) • Software Eng. (Pursuing alongside full-time work)

2024 – PRES

Diploma in Computer Engineering

Carmel Polytechnic • Distinction • Campus Placed at CISAI (Innspark)

2021 – 2024

Basics of AI & ML — Lekshmi Infotech

DIPLOMA INTERNSHIP

AI & ML algorithms, data preprocessing, and hands-on implementation during diploma.

Basics of Telecommunication — BSNL

DIPLOMA INTERNSHIP

Telecom networks, data transmission protocols, and infrastructure during diploma.

🔗 SPECIALIZED COMPETENCIES & ENGINEERING STRENGTHS

AI-INTEGRATED DEV & DATA INTEGRITY

ZERO LEAKAGE

Leveraging advanced AI workflows for rapid engineering velocity while strictly adhering to corporate data privacy boundaries, code cleanliness, and security integrity.

High-Productivity AI Workflows • Safe Prompting

CYBER & SOC TELEMETRY DASHBOARDS

TELEMETRY / VIZ

Specialized in architecting high-density telemetry consoles, SOC suites (SIEM, SOAR, UEBA, NDR), interactive data grids, dynamic graph topologies, and real-time security analytics.

amCharts • Three.js • Highcharts • Sigma.js

RAPID TECH STACK ADAPTABILITY

FAST LEARNER

Fast-learning agility to master new frameworks and libraries with minimal turnaround time to design, build, and deploy full-lifecycle websites, apps, and software systems.

Full-Lifecycle Delivery • Rapid Prototyping

UI ARCHITECTURE & PERFORMANCE

HIGH PERFORMANCE

Engineering modular component systems, reactive state architectures, responsive cross-device layouts, glassmorphic UI polish, and smooth micro-animations for high-load platforms.

Component Design • Reactive Streams • UX Polish
